### TONIC WATER

A totally natural drink made from lemons harvest in the Guadalquivir Valley, Sevillian lemon peel, Persian lime peel (known as Kalamansi lime), Japanese yuzu, Sevillian lemon blossom, quinine bark, white and cane sugar.

It has an intense lemony aroma which is complemented by the freshness of the lime and the delicate perfume of the lemon blossom. It has the characteristics of all of the different citrus ingredients on the palate and the savoury note of the Quinine, making it a very refreshing drink.

A refreshing drink on its own, or as a mixer with premium Gin or Vodka

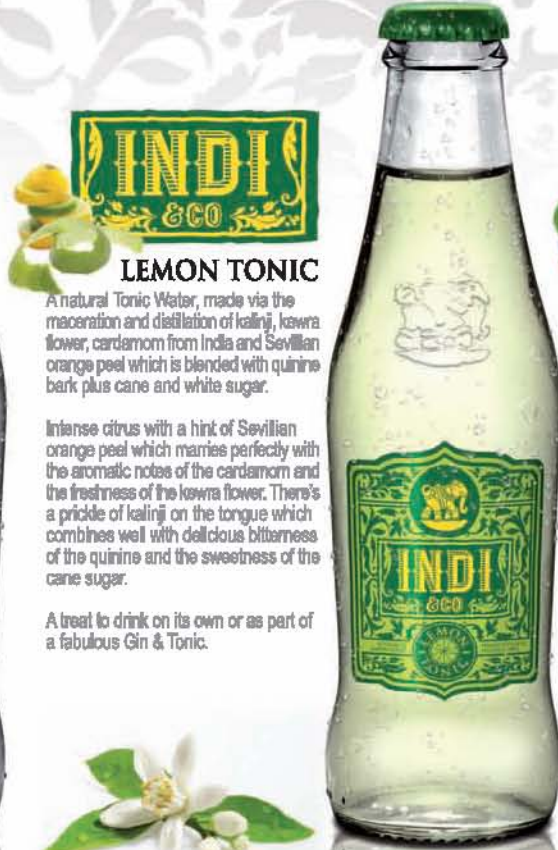

### LEMON TONIC

A natural Tonic Water, made via the maceration and distillation of kalinji, kawra flower, cardamom from India and Sevillian orange peel which is blended with quinine bark plus cane and white sugar.

Intense citrus with a hint of Sevillian orange peel which marries perfectly with the aromatic notes of the cardamom and the freshness of the kawra flower. There's a prickle of kalinji on the tongue which combines well with delicious bitterness of the quinine and the sweetness of the cane sugar.

A treat to drink on its own or as part of a fabulous Gin & Tonic.

### SEVILLE ORANGE

A delicious and refreshing Orange drink. First we gently macerate and distill carefully selected Orange skin, Mandarin, Orange Blossom and Kalamansi Lime. This is mixed with natural - Seville orange and mandarin juice.

INDI & Co Orange, is surprising. It's high (31%) content of natural juice, and gentle "sparkling" make it a lovely drink. Our unique and artisanal production process brings out the maximum in flavors and taste.

Great to enjoy on its own or in combination with quality Vodka.

### BLACK

BLACK is an exclusive refreshing drink produced by traditional methods which are macerated and distilled with botanical extracts of kola nut, lemon, lime and violet, highlighting the best mix of natural aromas and flavors. Great to enjoy on its own or in combination with quality rums or whiskies.
